CLAIMS

What is claimed is:

1.   1.   A system for implementing entity bookmarks, comprising:

2.   an entity including an addressing mechanism;

3.   a selectable resource wherein the resource is accessible via the
4.   addressing mechanism; and

5.   means for selecting the resource.

1.   2.   A method for implementing entity bookmarks, comprising:

2.   selecting an identifier associated with a resource;

3.   associating the identifier with an entity bookmark, wherein the
4.   resource is accessed by selecting the entity bookmark.

1.   3.   An entity, comprising:

2.   a media pool;

3.   a body;

4.   at least one entity method; and

5.   at least one bookmark, wherein the bookmark provides an
6.   addressing mechanism.

1.   4.   An entity, comprising:

2.   a media pool;

3.   a body;

4.   a brain;

5   at least one entity method; and

6   at least one bookmark, wherein the bookmark provides an
7   addressing mechanism.

1   5.   The system of claim 1 wherein the addressing mechanism
2   provides a link to a universal resource identifier (URI).

1   6.   The method of claim 2, wherein the identifier is a universal
2   resource identifier (URI).

1   7.   A system for entity messaging, comprising:

2   an entity including at least one bookmark;

3   an entity-enabled device for invoking the entity; and

4   a bookmark selection means for selecting the bookmark.

1   8.   A method for entity messaging, comprising:

2   invoking an entity, wherein the entity includes at least one
3   bookmark associated with a resource;

4   selecting the bookmark; and

5   accessing the resource associated with the bookmark.

1   9.   The system of claim 7, wherein the bookmark selection means
2   further comprises error handling means for determining whether
3   the bookmark selection fails.

1   10.   The system of claim 7, wherein the bookmark selection means
2   is a link to a universal resource identifier (URI).

1   11.   The system of claim 7, wherein the bookmark selection means
2   is a shortcut to a link to a universal resource identifier (URI).

1   12.   The method of claim 8, wherein the resource associated with the

2   bookmark is a universal resource identifier (URI).

1   13.   The method of claim 8, further comprising the step of

2   determining whether an error has occurred during the accessing

3   of the resource.
